

MARINE OUTBOARD ENGINE 2 STROKES CUTAWAY

A1

Product number

AE37900M

Marine engine cutaway educational trainer featuring a 2-stroke engine with either 2 or 3 cylinders, offering an in-depth view of internal mechanics. This trainer integrates a water cooling system with a centrifugal pump and a mechanical type converter, providing a comprehensive understanding of engine operation and cooling processes. With its cutaway design, the trainer enables clear visibility of critical components and systems, making it an essential tool for technical and vocational education in marine engineering.

Features

- The 2-stroke engine features a cutaway view, allowing complete visibility of internal components including pistons, cylinders, and the cooling system.
- Equipped with a centrifugal pump to showcase the water-based cooling mechanism, essential for maintaining engine temperature.
- Includes a mechanical type converter to demonstrate its function and impact on engine operation.
- Displays a 2-cylinder or 3-cylinder setup, highlighting variations in engine design and performance.
- Durable and mobile design for longevity and space saving in classes.

Specifications

- Dimensions: 800 x 800 x 1500 mm (31.50 in×31.50 in×59.06 in)
- Weight: 60 kg (132 lb)
- Product number: AE37900M
