

OUTBOARD MARINE REVERSER CUTAWAY

A1

Product number

AE37930M

Mechanical reverse system designed for marine outboard motors, manually operated through a crank handle. Professionally sectioned for instructional use, the trainer showcases internal structures with components highlighted in distinct colors to identify cross-sections, lubricating circuits, and moving parts. Chromium-plated and galvanized finishes enhance durability for long-term educational use.

Features

- Mechanical reverse system for marine outboard motors, manually operated via a crank handle.
- Sectioned design with visible cross-sections and clear identification of internal parts.
- Differentiated parts using professional painting and color coding for better understanding.
- Chromium-plated and galvanized finishes ensure durability and resistance to wear over time.
- Compact, lightweight structure for easy transport and storage.

Specifications

- Dimensions: 500 x 400 x 750 mm (19.68 x 15.75 x 29.52 in)
- Weight: 8 kg (17.63 lbs)
- Product number: AE37930M
